

TENNESSEE GENERAL ASSEMBLY
FISCAL REVIEW COMMITTEE

FISCAL NOTE

HB 1867 - SB 1823

January 30, 2022

SUMMARY OF BILL: Mandates that an employer who requires proof of a COVID-19 vaccination from their employees must grant an exemption if the employee has a signed and dated medical exemption statement from a licensed healthcare professional or a stated religious belief. Details the provisions of the process employers must take in such situations. States that a violation of these standards is a civil penalty of \$10,000.

Instructs the Attorney General and Reporter (AG) to establish a process of reporting violations to these rules and allows for proceedings in the Davidson County chancery court or the chancery court in the county where the employer is located.

Establishes that a licensed healthcare provider who provides the signed statement requesting COVID-19 vaccination exemption is immune from civil liability and disciplinary action.

FISCAL IMPACT:

NOT SIGNIFICANT

Assumptions:

- It is expected that there will not be enough reports of violations to substantially impact the AG workload. Establishing a reporting process can be accomplished with existing staff and resources.
- For the employer to receive the punishment of a \$10,000 civil penalty, the supposed violation must go beyond an allegation and reach a proven assertion. There will not be a significant increase in revenue from collection of additional civil penalties.
- The proposed legislation provides an exemption from civil liability and disciplinary action for a licensed healthcare provider who provides the signed statement requesting COVID-19 vaccination exemption; therefore, there will be no impact to the total number of court cases related to this provision.
- Currently, federal law mandates critical healthcare workers at facilities receiving funds from Medicaid and Medicare to receive the COVID-19 vaccine. Federal law provides for a medical or religious belief exemption to the mandate. It is assumed any employer of critical healthcare workers is following federal mandate guidelines and will not be in jeopardy of losing federal funds by complying with the proposed legislation.
